The Best of *Learning & Leading with Technology*

Selections from Volumes 31–35

Edited by Jennifer Roland

ISTE's flagship magazine, *Learning & Leading with Technology* is where the organization's members and industry experts share and discuss the latest and greatest in using technology to enhance education. This collection, assembled by former *L&L* senior editor Jennifer Roland, includes the very best articles from 2003–2008. Along with the articles as they originally appeared in the magazine, the book includes commentary and context introducing the articles as well as short essays from the original authors, who further discuss the issues and topics of their articles and how they've affected the ed tech world.

With a large selection of articles from each of the regular sections of ISTE's award-winning magazine, *The Best of Learning & Leading with Technology* is an excellent resource for new ISTE members or beginning ed tech users, and is a "must-have" volume for longtime fans of the magazine. Along with provocative columns, insightful features, and practical tips, a full-color section showcases some of the best artwork and covers from the *L&L* design team.
